

# WE ARE FERSA A SPANISH-AUSTRIAN COMPANY

Fersa was created through the merger of two European bearing manufacturers: Fersa Bearings in Spain and NKE in Austria. Both are globally active in the design, production and distribution of high quality bearings for the global automotive and industrial markets.

Over 50 years of manufacturing experience and the trust of leading OEMs, Tier 1 and their respective aftermarkets endorse our products and services.

Fersa has an extensive network of distribution centers that service globally. We count with local facilities in Austria, Brazil, China, Spain and USA and state-of-the-art manufacturing centers in Austria, China and Spain.

## FERSA

# THE PERFECT SOLUTION TO INDUSTRIAL APPLICATIONS

# AUSTRIAN QUALITY COMBINED WITH ADVANCED TECHNOLOGY

**NKE AUSTRIA GmbH is a premium bearing manufacturer with headquarters in Steyr, Austria. The company was founded in 1996 by a group of senior staff members of the former Steyr Wälzlager.**

NKE manufactures both standard and special bearings for all industrial applications. Our core competences – engineering, product development, final processing of components, assembly, quality assurance, logistics, sales and marketing – are centralised in Steyr. The site is accredited with ISO 9001:2015 (design, development, manufacturing and distribution of bearings), ISO 14001:2015 and OHSAS 18001.

**NKE bearings are distributed through international representative offices and more than 240 distribution outlets in over 60 countries.**

## We offer.

- / Standard bearings with a comprehensive stock range.
- / Tailor-made bearings for special requirements.
- / Technical service (e.g. consulting, documentation, training etc.).

## Quality guaranteed at 100%.

All NKE bearings are manufactured with state-of-the-art equipment. They undergo stringent and documented quality inspection. By using advanced testing and measuring equipment and applying a rigorous quality policy, we can guarantee that every single batch of bearings delivered is of the highest quality standards.

## Comprehensive commercial and technical services

NKE AUSTRIA provides a wide range of commercial and technical services, such as:

- / application engineering support
- / design and development
- / calculations
- / testing
- / logistic services (e.g. just-in-time delivery) to meet your demands

## NKE bearings for application in the agricultural industry – efficiency and performance

The intensification of agricultural production entails an even increasing mechanisation and automation. Correspondingly the specifications for bearings in this sector have increased tremendously. NKE Austria offers a range of products to meet these challenges with a clear focus on application specific solutions

## NKE – offering a wide bearing range

Our products are characterized by delivering a balanced cost benefit ratio and economic maintenance. By integrating components and parts into the bearing design an optimized utilization of available space can be achieved resulting in application specific solutions.

## NKE bearings are used in standard and special applications i.e.:

- / agricultural machinery – specific drive systems (vehicles and PTO gears)
- / soil working machines (disc harrows, sowing machines,...)
- / chain drives

## Our bearings stand for:

- / operating reliability
- / robust design
- / application-oriented sealing and lubrication concept
- / easy to use and mount

## NKE bearing types in agriculture:

in unterschiedlichen Ausführungen werden

- / deep groove ball bearings
- / angular contact ball bearings
- / taper roller bearings

used as standard types and in bearing units.
